Product name:	Product code:
Automatic Pull Off Adhesion Tester for Paint and Coatings	CMI-IND-0391

Description

Hydraulic or pneumatic tester that pulls a bonded dolly from a coating to measure adhesion strength in MPa. Used for industrial paints, galvanising and floor coating checks.

Technical specification

- Dollies (10 nos)
- Adhesive
- Cutting tool

A 20 mm dolly is glued to the coating and the tester pulls it at a constant rate until detachment. The load and failure mode record whether the break was adhesive or cohesive.

Features

NAUGRA®
Civil Laboratory Equipment Manufacturers and Suppliers India Civil Lab Exportrs India

- Range 0 to 20 MPa
- Automatic loading rate
- Peak value hold
- Dolly sizes 10, 14 and 20 mm
- Data logging via Bluetooth
- Portable case

Technical Specifications

Range	0 to 20 MPa
Accuracy	+/-1% of reading
Loading rate	0.2 MPa/s adjustable
Dolly size	20 mm (others optional)
Resolution	0.01 MPa
Memory	200 readings
Power	Li-ion, 8 h
Standards	ISO 4624, ASTM D4541

Standard Accessories
