Product name:	Product code:
Pencil Hardness Tester for Surface Coatings	CMI-IND-0399

Description

Holder that keeps a pencil at 45 degrees under a fixed 750 g load for measuring scratch hardness of films. Used in paint and powder coat labs.

Technical specification

- Sharpener
- Abrasive paper

Pencils of graded hardness are pushed across the film. The hardest pencil that does not scratch or gouge defines the pencil hardness.
