Product name:	Product code:
Tape Stretch Ratio and Draw Ratio Measuring Apparatus	CMI-IND-0495

Description

Roller bench with marking stamps and digital counter that measures marked tape lengths before and after stretching to find draw ratio. Used by raffia tape line operators to check orientation.

Technical specification

Standards	IS 6359, ISO 2060 related
Power	230 V AC, 50 Hz

Standard Accessories

- Marker
- Rule
- Counter

Marked tape lengths are measured before and after stretching. The ratio shows tape orientation and strength.

Features

- Marker stamps
- Measuring tape
- Roller feed
- Digital counter
- Tension control
