Product name:	Product code:
Vacuum Pump	Bitumen0016

Description

Vacuum Pump

Technical specification

Vacuum Pump Vacuum Pump from Civil Mechanical Laboratory India

Complete with base, motor, pulley and belt. The pump mechanism is contained in a metal case with oil level and drain plug at base. Vacuum Pump for Civil Engineering from Laboratory Equipment Manufacturers India - Pump speed 450 RPM. Ultimate vacuum 0.01 mm/Hg. (Single stage). Complete with non-return valve, belt gauge and vacuum gauge with regulator.

Displacement

50 Ltr./Min, Motor Rating : 0.25 HP Single Phase. To work on 230 V AC, 50 Hz. Single Phase. Supplied complete with filtering flask of 1000 / 2000 ml. Capacity with rubber cork and pressure pipe to carry out the test
