| Conradson Carbon Residue Apparatus | Bitumen0028 |

## Description

Conradson Carbon Residue Apparatus

## Technical specification

**Conradson Carbon Residue Apparatus**

Conradson Carbon Residue Apparatus from Civil Mechanical Laboratory India

Conradson Carbon Residue Apparatus It is used to determine the amount of carbon deposit when an oil is evaporated under specified condition.Conradson Carbon Residue Apparatus for Civil Engineering from Laboratory Equipment Manufacturers India - The Carbon Residue values of crude oil, residue etc. are useful in the manufacture of various lubricants. The apparatus consists of Spun Sheet Iron
