Product name:	Product code:
Core Cutting/Core Drilling Machine (Motorised)	RTE-0003

Description

Core Cutting/Core Drilling Machine (Motorised)

Technical specification

Core Cutting/Core Drilling Machine (Motorised): The rugged, economical drill has a powerful two-speed electric motor and bit capacities up to 12in (305mm) diameter. Its column rotates 180° horizontally allowing precise placement of the drill bit. The super-duty two-speed (450/900rpm) 3.5hp motor and carriage can be removed or reattached without changing location for ease in snapping
