Product name:	Product code:
Digital spectrophometer	ELE-0002

Description

Digital spectrophometer

Technical specification

Digital spectrophometer: offers many of the leading spectrophotometer instruments in the water analysis market. You want solutions that make your daily routine of testing easier. Whether you need a solution that offers Ultraviolet & Visible Spectrum (UV/VIS) scanning capability like the DR6000 or a solution that scans and tracks your chemistry and samples with RFID tags over a broad wavelength like the DR3900 or a truly portable field spectrophotometer like the DR1900
