Product name:	Product code:
Concrete Thermometer	Concrete0013

Description

Concrete Thermometer

Technical specification

Concrete Thermometer

Concrete Thermometer from Civil Mechanical Laboratory India

Concrete Thermometer Temperature of concrete at the time of placement is important to control and to avoid many possible difficulties. Concrete Thermometer for Civil Engineering from Laboratory Equipment Manufacturers India - In hot climates, it is important to measure the temperature of the fresh concrete to ensure it is not too hot, which could cause flash setting and rapidly reducing workability. Measurements are generally taken at the point of placement.

The Concrete Thermometers are available in following types.

1. Mercury in Glass type or Alcohol in Glass type
2. Dial type
