Product name:	Product code:
Wankel Engine Model	AEL-0025

Description

Wankel Engine Model

Technical specification

SPECIFICATIONS:

- Light metal construction.
  • Operated manually by a crank handle
  • Mounted on a base

DESCRIPTION:

The Educational model of a Wankel engine. This rotating engine model is true to the original and complete with cutaway carburetor. The rotor (triangular piston), operates by the driving shaft and rotates inside the stator clearly showing the different phases. During the compression phase, a small bulb lights up to simulate the gas ignition.
