1. Ergonomically designed State of the Art Technology Microprocessor based Digital Indicator Unit
2. Load, Peak, Dye for Digital display of load in kN/KG and the upper for Microprocessor Based Universal Testing Machine for Civil Engineering from Laboratory Equipment Manufacturers India - Displacement in mm in bright, shadow-less display
3. Feather-touch push buttons for Tare, Peak Hold – Load, Peak Hold – Displacement and Auto Calibration.
4. Bright Digital Display
5. Resolution 10,000 Counts for load
6. Resolution for Displacement 0.01 mm

Optional:

1. Resolution – 20,000 Counts for load and 0.01 mm or 0.001 mm for elongation as per requirement at extra cost
2. PC with Software and Printer
3. Provision of Analogue display with Autographic Recorder
4. RS 232 serial port
