Product name:	Product code:
D.C. Generator	EEG0002

Description

D.C. Generator

Technical specification

Windings types: Shunt/Series/Compound type.
Ratings available: 0.75 KW, 220/440V to 7.5kw 220/440V

D.C. Generator Manufacturer

As one of the trusted suppliers and manufacturers, we offer a superior quality range D.C. Generators to our valuable clients at reasonable prices. These generators are manufactured using high-quality raw materials by the help of high sophisticated technology and expert engineers. Our generators are appreciated for their high operation functionality, sturdy construction, low maintenance and high durability all over the world. We offer these generators in various grades, size and capacities in accordance with the client's requirements.
