Product name:	Product code:
Dynamic Cone Penetration Apparatus	Soil0023

Description

Dynamic Cone Penetration Apparatus

Technical specification

Dynamic Cone Penetration Apparatus

Dynamic Cone Penetration Apparatus from Civil Mechanical Laboratory India

Dynamic Cone Penetration Apparatus Consists of one cone, plain 50 mm base diameter and cone angle 60°, one cone adaptor, Dynamic Cone Penetration Apparatus for Civil Engineering from Laboratory Equipment Manufacturers India - guide pipe assembly with one end cap and one driving head with threads for ‘A’ rod coupling. Tripod stand 6 meter height with built in ladder with pulley arrangements. Drive weight 65 kg fitted with chain
