Product name:	Product code:
Swell Test Apparatus	Soil0029

Description

Swell Test Apparatus

Technical specification

Swell Test Apparatus

Swell Test Apparatus from Civil Mechanical Laboratory India

Swell Test Apparatus 1. One loading unit Hand. operated 5000 kg capacity Swell Test Apparatus for Civil Engineering from Laboratory Equipment Manufacturers India - with two rates of travel
2. One Gun metal mould, 100mm dia x 127.3 cm height X 1000 cc volume with base plate & collar
3. One perforated swell plate 100mm dia X 16mm thick
4. One spacer 100mm dia X 12.7mm thick
5. Two porous stone of 100mm dia X 12.7mm thick
6. One load transfer bar
7. One steel ball & one soaking tank, 250mm dia x 210mm high
8. Dial gauge 0.01mm X 25mm travel
9. Proving ring of 2.5 KN capacity with calibration chart and carrying case
