Product name:	Product code:
Calibration Pressure Gauges	Fluid00058

Description

Calibration Pressure Gauges

Technical specification

Calibration Pressure Gauges Calibration Pressure Gauges

Specification Of **Calibration of Pressure Gauges**

- Bourdon tube pressure gauge for pressure measurement
- Transparent dial face with a view of the spring mechanism
- Accurately fitting piston and cylinder of the piston manometer without seals
- Hydraulic oil for transfer of the force
- Hydraulic pump with storage tank and bleed mechanism

Technical Data Of **Calibration of Pressure Gauges**

- Piston manometer
- Pressure piston: diameter: 12mm
- Hydraulic cylinder: diameter: 25mm, length=225mm
