Product name:	Product code:
Series Parallel Pumps	Fluid00071

Description

Series Parallel Pumps

Technical specification

- All hoses and fittings supplied for easy connection to hydraulics bench in either series or parallel configuration
- Educational Software available as an option

Technical Details:

Item	Series/Parallel Pumps
Pump	Centrifugal type Max. head 21m H2O Max. flow 1.35 litres/sec
Motor rating	0.36kW
Pressure gauge range	0 to 45m H2O
Compound gauge range	-10 to + 45m H2O

Series Parallel Pumps Series Parallel Pumps We are one of the prominent firms in offering a wide range of **Series Parallel Pumps** in the market. Our provided products have a fixed speed pump assembly and independent discharge manifold interconnected by flexible tubing with quick release connectors. Apart from this, the offered pumps are available in many specifications to fulfill the requirements of our valued clients.

Features:

- Dimensional accuracy
- High performance
- Easy to use

Specification:

- Fixed speed pump with similar performance characteristics to pump in Hydraulics Bench
- Mounted on floor standing plinth with ON/OFF switch
- Discharge manifold with flow control valve and pressure gauges
