Product name:	Product code:
Forces in Various Single Plane Trusses	Chemical0002

Description

Forces in Various Single Plane Trusses

Technical specification

Forces in Various Single Plane Trusses Forces in Various Single Plane Trusses

Specification of **Forces in an Over determinate Truss**

- Investigation of bar forces in statically over determinate trusses.
- Surplus bar, longitudinally adjustable.
- Straight and inclined loading possible.
- Strain gauge to measure force on each bar.
- Measurement amplifier required.
- Software to evaluate measurement data.
- Storage system to house the components.
- Experimental set-up in frame
