Product name:	Product code:
Filter Press and Micro-filter Pilot Plant	Chemical0011

Description

Filter Press and Micro-filter Pilot Plant

Technical specification

- 400 Vac 50 Hz three-phase-1500 VA (Other voltages and frequencies available on request)

Filter Press and Micro-filter Pilot Plant

- Feed tank with a capacity of 100 liters with stirring system and submersible pump
- Tank for collecting the filtered water with a capacity of 100 liters
- Feed screw pump with electronic inverter control system
- Magnetic flow-meter with 4 to 20 mA output signal
- 2 Safety pressure switches
- Filter press with Plexiglas frames
- Micro filter with housing
- Electronic turbidimeter with 4 to 20 mA output
- Electrical control unit .
- Emergency stop button.
- Digital microprocessor PID controller.
- Supervision software for Windows controls ON-OFF signals, analogue signals coming from the PID controller, real-time trend and historical trend.
