Product name:	Product code:
Manual Bioethanol Production Plant Manual Bioethanol Production Plant	Chemical0013

Description

Manual Bioethanol Production Plant Manual Bioethanol Production Plant

Technical specification

Manual Bioethanol Production Plant Manual Bioethanol Production Plant

- Multifunction reactor with 13 litres capacity complete with:
- Stirrer with variable speed and mechanical seal
- Baffles
- Sight glass
- Cooling and heating coil
- Insulation of rockwool and sheet steel
- Thermocouple with Pt100 probe
- Sensor for measuring pH
- Safety valve
- Distillation column with bubble cap trays and two thermocouples with PT100 probes
- Condenser manufactured from AISI 304 stainless steel and two thermocouples with Pt100 probes.
- Electrical control panel in main cabinet.
- Emergency stop button
