Product name:	Product code:
Liquid Extraction Pilot Plant With Raschig Ring Packing	Chemical0029

Description

Liquid Extraction Pilot Plant With Raschig Ring Packing

Technical specification

Liquid Extraction Pilot Plant With Raschig Ring Packing

Specifications:

- Packed extraction column 600mm, with Raschig rings.
- Electronic indicator for agitator speed .
- Top separator.
- Bottom separator.
- 2x metering pumps with a flow rate of 0 to 40 litres per hour.
- Feed tank with a capacity of 30 litres for the heavy phase material.
- Feed tank with a capacity of 30 litres for the light phase material
- Collecting tank with a capacity of 30 litres for the extracted product
- Collecting tank with a capacity of 30 litres for the refined product
- Electrical control panel in main cabinet
- Emergency stop button
