Product name:	Product code:
Batch Distillation Pilot Plant	Chemical0035

Description

Batch Distillation Pilot Plant

Technical specification

- Condenser with reflux head
- Tank for collection of distillate with 1 litre capacity.
- Tube in tube heat exchangers manufactured from AISI 304 stainless steel
- 6 digital thermometers with pt100 probes protected by stainless steel shield sleeves
- Thyristor unit for controlling the power to the reboiler electric heater
- 2 programmable timers for the control of reflux ratio.
- Variable-area flow meter made of glass and stainless steel with a range 20 to 200 litres / hour
- Emergency stop button

Batch Distillation Pilot Plant Batch Distillation Pilot Plant Being the foremost organization, we rule the market by offering an exclusive collection of **Batch Distillation Pilot Plant**. The offered products are designed by keeping in mind the set industry norms. This plant has the condenser with reflux head and tank for collection of distillate with 1-liter capacity. Our offered array is admired among our clients for its attractive features.
