Product name:	Product code:
Modular Oil Hydraulic Trainers	EEH0014

Description

Modular Oil Hydraulic Trainers

Technical specification

Hydraulic frame mounted on castors including 5 modules.

Mobile Hydraulics Configuration :

Hydraulic frame mounted on castors including 6 modules.

2/ Proportional Hydraulics

Open Loop Proportional Hydraulics Configuration.
Hydraulic frame mounted on castors including 10 modules.
1 electric board including 3 push buttons, 3 turning buttons and 4 relays.
Open Loop Proportional Hydraulics Configuration and Servocontrol.
Hydraulic frame mounted on castors including 10 modules

A 19 ” rack including

1 numeric regulator configurable in open loop or closed-loop with PID algorithm.
2 potentiometers.
2 switches.
1 relay.
1 two-way commutable voltmeter.
1 two-way commutable ammeter.
The system is completely modular and we propose up to 88 different modules covering conventional and proportional hydraulics.

3/ Hydraulic Power Stations

Simple hydraulic power station with fix capacity mounted on castors including :
(Equipment for single side bench)
Double hydraulic power station with fix capacity mounted on castors including :
(Equipment for double sides bench).
Simple hydraulic power station with variable capacity mounted on castors including :
(Equipment for single side bench).
Double hydraulic power station combined MIL-CMIXTE mounted on castors including :
(Equipment for double sides bench)

Dimensions and weight

2120 x 700 x 1700 – 110kg / 140kg

Essential requirements

Electric power supply : 3 x 400 V + N + T
