Product name:	Product code:
Digital Trainer	EEN0050

Description

Digital Trainer

Technical specification

- Weight : 3 Kg. (Approx.)
- Dimension : W 340 x H 110 x D 210

Digital Trainer 1. Breadboard : Solderless Bread board with 1680 inter connected
Tie Points
2. Pulse Switches : 2 No’s. Bounce free push buttons
3. Logic Switches : 8 logic level Switches in Dip type
4. Power Supply : Fixed: +5V at 750 mA
5. Power Sockets : Logic Equipment Power Supply Sockets
6. Logic Input : 8 LED buffered logic level indicators
7. Variable Clock : Fine adjustment of clock frequency.
Clock range selection L: 10 – 40 Hz, H : 1K – 20K Hz.
8. Jacks : 2mm to BNC Socket 2 No. 2mm to 4mm Socket 2 No.
9. Components Provided : ICs – 4001/1, 7400/3, 7402/1, 7404/1, 7408/1,
7432/1, 7476/2, 7486/1, 74126/1, Resistors 1/4W
±5% 230E/1, 10K/1, 39K/1, LED 5mm/1
10. Accessories : Mains cord, 2mm Red & Black patch cords 5 each and 2mm to 1mm Red & Black 5 each
11. Instruction manual : Strongly supported by detailed operating instructions.
12. Logic Probe Omega Type LP-002 With 2mm Banana Pin Qt.1 Provided

- Wiring of all types of experiments become simple and less time consuming.
- The unit is operative on 230V ±10% at 50Hz AC Mains.
