Product name:	Product code:
Transmission Line Trainer	Communication0002

Description

Transmission Line Trainer

Technical specification

Transmission Line Trainer

- Transmission line : Coaxial Cable
- Impedance Matching Resistance : 0 – 100W
- Test generators : Sine wave, Square wave
- Interconnections : Banana sockets
- Test point : 10
- Measurement of line proper ties
- Measurement of line attenuation
- Frequency characteristics of line
- Input impedance of the line
- Measurement of stationery waves
- Power source : 220 ~ 230V AC, 50Hz, 1 Phase
