Product name:	Product code:
DC Supply	Educational0018

Description

DC Supply

Technical specification

DC Supply

DC Supply is an important device in Electrical laboratories. It is very helpful in performing experiments with DC Voltages. The product provides both Fixed and Variable DC supplies. Product is designed such that it can be connected to any other equipment easily. Additional meters are provided to observe output voltage and current measurements.

Technical Specifications

- **Mains Supply** : 230 V ±10%, 50Hz
- **Outputs**
- Variable DC : 0 -180V
- Fixed DC : 180V
- **Transformer**
- Rating : 2kVA
- Primary Voltage : 0-230V
- Secondary Voltage : 0-150V, 0-150V
- **Meters Used**
- Voltmeter (MC) : 300V
- Ammeter (MC) : 10A
- **Auto Transformer** : 270V, 10A
- **MCB** : 10A
- Dimensions (mm.) : W 300 ´ D 600
