Product name:	Product code:
Conveyor Control by PLC	Instrumentation0006

Description

Conveyor Control by PLC

Technical specification

Conveyor Control by PLC

Features :

Real time conveyor control by PLC
Product sorting
Works on both Auto/Manual mode
Provision for user to expand the number of sensors
Exhaustive course material & references
Optional application boards

Technical Specifications :

Digital Input pin voltage : + 24 V DC when particular I/P are activated for PLC
Digital Output pin voltage : + 5 V DC when particular O/P is activated from PLC
IR Sensor : + 24 V DC output
Proximity Senso : + 24 V DC output
DC Motor : + 5 V DC
Toggle Switches : Two
Latch Switches : Two
Power Supply : From PLC trainer (+ 24 V DC & + 5 V DC)
Interface : 2mm patch cords needed along with PLC trainer
