Product name:	Product code:
Water Cooled Four Stroke Diesel Engine	Fluid Equipments0031

Description

Water Cooled Four Stroke Diesel Engine

Technical specification

2. Bore: 75mm, stroke: 70mm
3. Power output: 5,1kW at 3000min-1

Cooling water circuit

Capacity: 2,5L

1. Pump: max. 640L/h, max. 100m
2. Measuring ranges
3. Temperature: 2x 0...100°C
4. Flow rate: 30...300L/h

Water Cooled Four Stroke Diesel Engine

Specification of **Water Cooled Four Stroke Diesel Engine**

Water-cooled single-cylinder four-stroke diesel engine with swirl chamber for installation .

1. Engine mounted on base plate
2. Force transmission to brake via elastic claw coupling
3. Engine complete with fuel hose and exhaust gas temperature sensor
4. Cooling water circuit with circulating pump, flow meter and temperature sensors
5. Fuel hose with self-sealing quick-release coupling

Technical Data

1. Single-cylinder diesel engine with indirect injection
