Product name:	Product code:
Electric Forklift Electric Circuit Training	AUT0-0019

Description

Electric Forklift Electric Circuit Training

Technical specification

Measuring the input/output data in each component.

An educational unit for understanding the components of the Electric Forklift electric system and training.

Is the best model to see operation state and location of components by making parts which aren't seen at an actual one open.

Effective education by troubleshooting and inspection theory training

Specification:-

Composition:- Battery, operating lever, light system, horn, hydraulic lever, instrument panel, starter motor, battery connector, relay, digital meters, etc

Electrical circuit device of left-seat type Electric Forklift.

Voltage, current measurement of driven rotor and hydraulic rotor during operation

Size:- approx. 2,000 X 600 X 1,700 mm
