Description

Sectioned Truck Diesel Engine (4-Cylinder) Trainer

Technical specification

Cooling system

Oil system

Alternator

This trainer provides the instructor with a fully sectioned 4- cylinder truck diesel engine for group or whole-class demonstration.

The trainer is mounted on a self-contained steel frame and base plate complete with castors.

The engine is operated by a pump and is sectioned so that all moving components can be seen and the way they interact can be observed.
