Vehicle Electrical System Trainer	AUT0-0053

Description

Vehicle Electrical System Trainer

Technical specification

This real component trainer offers a fully operational automotive electrical system designed for teaching basic electrical principles.

Investigations and demonstrations allow students to acquire an understanding of how simple electrical circuit theory is key to developing sound automotive fault-finding techniques.

Full operation of headlights, side lights, brake lights, indicators, and alternator via a speed controller can be observed.

The following vehicle circuits and systems are included.

Starting

Charging

Ignition

Lighting
