Product name:	Product code:
Displays and Accessories Systems Panel Trainer	AUT0-0056

Description

Displays and Accessories Systems Panel Trainer

Technical specification

This trainer provides students and instructors with the opportunity to demonstrate, investigate and fault-find a simulation of typical automotive display systems.

The trainer is designed to allow access to a variety of test points for vehicle electrical components and explore how they relate to dashboard displays and warning lights, as well as provide an understanding of the overall system layout and configuration.

To facilitate the development of techniques in diagnostics and fault-finding skills, the panel includes a range of fault-insertion options to simulate typical real-world system malfunctions.

The optional automotive cloud-based learning resources also offer supporting material in the form of presentations, investigations and assessments to underpin the practical tasks carried out on the panel trainer.
