Product name:	Product code:
Increment Borer	NUZGS0264

Description

Increment Borer

Technical specification

length 400 mm/16", 5.15mm/0.200" Core Diameter, 2-Threaded
Produced with high quality steel with PTFE coating on the borer bit to protect against rust and resin and to reduce friction. The solid borer bit with a barrel-shaped tip ensures an easy start and removal from the tree. Extractor made from stainless steel with steel cap. A grip-friendly handle ensures high performance and durability.
Include handle, PTFE coated borer bit and extractor. Extra spare borer bit.
