

Product name:
Heating Mantle

Product code:
CIVIL-HML-140-0001

Description

Heating Mantle

Technical specification

These heating mantles are made of rolled aluminium body.

The heating element is flexible, insulated and anchored securely in glass fabric.

Heating mantles are used to uniformly heat various glassware vessels such as flasks, by placing them directly on the heating element without substantially increasing the risk of glass shattering.

The temperature can go up to 350°C, controlled through energy regulator.
