

Product name:
Laboratory Dry Bath

Product code:
CIVIL-WTR-142-0001

Description

Laboratory Dry Bath

Technical specification

The heating part adopted extrusion molding alufer with high density which invests the instrument with features of big capacity, low heat-resistance and uniformed temperature. The instrument is equipped with digital temp-display, which makes it convenient to control the temperature at any rate. It is a desirable instrument for constant temp-heating.
