

Product name:
Glass Beaker

Product code:
CIVIL-BEK-157-0001

Description

Glass Beaker

Technical specification

Beakers are a great value! They are made of high-quality borosilicate glass that can be heated directly in an open flame. This glassware will withstand typical laboratory thermal variations common to chemistry processes like heating and cooling. Specifications: Material: Borosilicate Glass Capacity: 50ml, 100 ml, 150 ml, 250 ml, 400 ml, 500 ml, 600 ml, 1000 ml, 2000 ml Heat Resistant Chemical Resistant Graduated
