

Product name:
Transparent 3D Solid Set

Product code:
CIVIL-MTH-151-0003

Description

Transparent 3D Solid Set

Technical specification

It is product that enhances the knowledge of shapes, volume and other maths concepts to related to 3D dimensional figure. introduce children to solid geometry and allow them to investigate shapes, faces, vertices, edges, curves and angle with these plastic solids set. These shapes include cone, cylinder, cube, cuboid, sphere, rectangular prism, square base pyramid etc. These large solids add a tactile element to geometry lesson, illustrating relationships between area, volume, shape and size.
