

Product name:
Hotplate and Magnetic Stirrer Pro

Product code:
CIVIL-HSL-141-0003

Description

Hotplate and Magnetic Stirrer Pro

Technical specification

This Hot plate stirrer heats to 340° and is widely used in chemical synthesis, physical and chemical analysis, bio-pharmaceuticals and other fields. The hotplate casing is made moulded stainless steel. The hotplate is ceramic coated to resist corrosion and increase heating consistency. PID temperature technology controls heating process ensuring that target temperature is reached quickly and control and accuracy is enhanced. This hotplate model is suitable for external temperature sensor which displays and controls the actual liquid temperature. Specifications : Ceramic coated Hot warning light, remains active even when unplugged Units can be stored on side Integral fitting for retort rod Stirring Capacity: 20 litres Dimensions: 155(w) x 270(d) x 55(h) mm
