Product name:	Product code:
CO Incubator	CIVIL-IND-186-0001

Description

CO Incubator

Technical specification

Features of CO Incubator
Temperature range amb +5°C to 80°C
Temperature accuracy : Heating + 1.0°C (at 37°C)
Stainless steel interior
Double door
CO sensor : IR
CO range : 0-20%
CO recovery : 5 minutes
Humidity : 95% @37°C (Automatic stable)
Audible & Visible alarm for temperature program, abnormally on operation etc.
Shelves : Stainless steel shelves are provided
Weight : 20 kgs
Provided with CO infra red sensor for the measurement of CO concentration and temperature controller with PID controller for CO and temperature control.
Suitable to work on 220-230 V, AC, 50 Hz, Single phase
Port for Oxygen : Provided
Port for Nitrogen : Provided
