

Product name:
Van De Graaff Generator Hand Driven

Product code:
CIVIL-ETS-120-0004

Description

Van De Graaff Generator Hand Driven

Technical specification

The length of the sparks generated is wholly dependent upon the speed at which the user turns the handle but sparks of around 20-30mm are comfortably achievable.

A hand driven Van de Graaff generator, which is a very effective unit for introducing electrostatics.

Dimensions (H x Dome Dia.): 400 x 200mm.
