
Product Name : DC Machine Lab	Product Code : Educational0001
---	--

Description :

DC Machine Lab

Technical Specification :

DC Machine Lab-I is an adaptable training system for the Electrical laboratories. It can be aptly employed for understanding the basic concepts and functioning of DC Motors and Generators. The product provides hands-on experiments like Speed control, Torque- Load Characteristics, NV Characteristics, N-I Characteristics etc. The trainer thus provides explicit understanding of the subject.

Features :

- DC Shunt Machines
- Electrical Loading arrangement up to 1.2KW
- Shaft Coupling arrangement
- Exclusive and rugged designed panel
- Stand alone operation
- Designed by considering all the safety precautions
- High quality meters
- Diagrammatic representation for the ease of connections
- Provided with an extensive e-manual
- 2 Year warranty

Specifications:

- Input : 180 V Fixed DC and 0-180 V Variable DC
