| Description : |
| Escape Robot Kit |
| Technical Specification : |
| <p>Escape Robot Kit (Infrared Sensor) Escape Robot Kit works just like an A.I. robot. It never fails to find its way out of a maze. The Escape Robot makes use of three infrared emitting diodes and one infrared receiving module to send and receive signals and detect obstacles.</p> <p>Escape Robot has a built-in microprocessor which enables it to on its own as it processes information about its environment and maneuvers itself around obstacles.</p> <p>The Escape Robot moves on six legs. The kit comes complete with 2 sets of differently designed legs which provides endless fun and excitement with its different sets of movements.</p> |
