

**Product Name :**  
Fill Box For Scc Test

**Product Code :**  
Concrete0014

**Description :**

Fill Box For Scc Test

**Technical Specification :**

**Fill Box For Scc Test**

Fill Box For Scc Test from Civil Mechanical Laboratory India

---

Fill Box For Scc Test for Civil Engineering from Laboratory Equipment Manufacturers India - The SCC L-Box determines the flow rates and passability of self compacting concrete in confined spaces. The test gives valuable information about filling and passing ability, and segregation resistance. It can be performed in the laboratory or in the field for QC testing.

The L-Box is comprised of concrete reservoir, slide gate, three obstacles and test basin. The flared top of the reservoir aids in accurate pouring of concrete sample into reservoir.
