

Product Name :
Inductive Load

Product Code :
EEF0001

Description :

Inductive Load

Technical Specification :

Inductive Load Manufacturer

Features:

It works on variation of air gap principle.

Works on principle of air gap variation.

High grade silicon used with stamping

Fitted in trolley with MS box coated with powder

Voltage and ammeter are used to find the voltage and current at variable loads

Copper conductor connected with 3PH choke coil star.

For the high insulation strength, wound coils are impregnated in vacuum pressure

Available Rating:

5A/10A/15A/20A for 1ph and 3ph types of Inductive load
