

Product Name :
Installation and Maintenance Comprehensive Training Platform

Product Code :
CIVIL-IMC-82-0001

Description :

Installation and Maintenance Comprehensive Training Platform for Electrical and Mechanical Equipment

Technical Specification :

Overview of the training platform for electrical and mechanical equipment

The training platform is involved in the required knowledge and skills about modern machinery manufacturing technology, mechanical drawing, mechanical foundation, mechanical design, electrical and electronic technology, automatic detection technology, PLC and frequency converter

application technology, mechanical and electrical equipment control technology, automatic control system technology, equipment, electrical control and maintenance technology, sensor technology, low-voltage electrical control technology, electrical and mechanical equipment operation and control technology.

Technical parameters of the comprehensive training platform

Input power: three-phase, four-wire (or three-phase, five-wire) AC 380V \pm 10% 50Hz/60Hz

Working environment: Temperature -10? ~40? Relative humidity? 85% (25?) Elevation? 4000m

Capacity: < 2.0KVA

Total dimension:

Workbench :1400×700×1415mm Electric control cabinet : 700×600×1800mm

Operation bench: 900×700×1500mm Computer desk: 560×600×1020mm

Safety protection: With current electrical leakage protection, safety meets the national standards
