

Product Name :

Over Crank Mechanical Shearing Machine

Product Code :

Over Crank0001

Description :

Over Crank Mechanical Shearing Machine

Technical Specification :

Empowered with an experience of over 30 years in the manufacturing industry, they are engaged in providing Over Crank Shearing Machine. The machinery is used for accurately cutting of metal sheets. The team of 30+ workers makes sure the quality of the product is up to the mark. The Mechanical over crank shearing machine Manufacturer, suppliers and exporters equip heavy duty machinery that has high durability, performance, and low maintenance.

The machine is constructed of hold down system, that are pads which hold the sheets securely to avoid slipping.

The frame is designed to avoid the weak sections whereas the Ram is guided by accurate designed guide ways for the proper clearance and clean-cut.

The four edged knife is provided for the longer tool life. The bearing parts and guide surfaces of the machinery are lubricated through hand lubrication machine.

What are the features of the machine?

Long Durability

Equipped with sharp cutting blades

Easy to install and maintain

Rigorous construction

Accessories of Mechanical over crank shearing machine

Gear and wheel guard

Hydraulic Hold downs systems

T Slot front supporters

Mechanical hold down & instruction manual

Manual lubrication system

Automatic lubrication system

Starter

V-belts

Ball roller or ball transfer

Hand operated back gauge

Front scale gauge

N.C Back gauge, Extension Squaring arm

Foundation Bolts

Electrical consists of electric motor

Motorized Back gauge with dro

Hold Down
