

**Product Name :**

Precision Pressure Gauge Calibrator

**Product Code :**

Fluid00073

**Description :**

Precision Pressure Gauge Calibrator

**Technical Specification :****Precision Pressure Gauge Calibrator**

Precision Pressure Gauge Calibrator We are a renowned organization involved in providing a premium quality collection of **Precision Pressure Gauge Calibrator** to our clients. The offered products are regarded for their dimensional accuracy, high corrosion resistance, durability and allow pressure gauges to be accurately calibrated up to 300 bars, with an accuracy of +0.015%. Apart from this, customers can avail these products in several specifications as per their requirements.

**Features:**

- Long service life
- High performance
- Efficient working

**Specifications:**

- This unit allows pressure gauges to be accurately calibrated up to 300 bar, with an accuracy of +0.015%.

- Priming pump.
- Spindle pump for pressure generation and fine adjustment.
- Piston allows calibration over a wide range of pressures.
- A spirit level (or bubble level) and rotating foot studs are provided to enable the student to level the unit.
- Mineral oil is used as the hydraulic fluid.
- A set of weights, a set of adapters for the pressure gauges, spare seals and a bottle of oil are supplied.
- Laboratory calibration certificate.
- Carrying cases for the unit and weights.
- Pressure gauges (not included)

#### Dimensions & Weights:

**Dimensions:**  
 500 mm x 350 mm x 400 mm. approx.  
 (19.68 x 13.77 x 15.74 inches approx.).

**Weights:**  
 5 kg approx. (11 pounds approx.).

**Dimensions:**  
 500 mm x 350 mm x 400 mm. approx.  
 (19.68 x 13.77 x 15.74 inches approx.).

---

Weight: approx.(99 pounds  
approx.).
