

Product Name :

Series Liquid Manometers Apparatus

Product Code :

Hydraulics0018

Description :

Series Liquid Manometers Apparatus

Technical Specification :

Series Liquid Manometers Apparatus We are one of the renowned and well-known industries which are extensively engaged in providing several kinds of supreme quality **Series Liquid Manometers Apparatus** in the market. These products are measuring differential water pressures up to approximately 12.5m H₂O. Offered products are designed to various specifications. Apart from this, provided product is available at pocket-friendly rates on the market.

Features:

- Various designs
- Longer service life
- Dimensional accuracy

Specifications:

- 1 meter scale differential open water manometer
- 1 meter scale differential pressurized water manometer (the air space above the tubes can be

pressurized with the pump supplied)

- 1 meter scale differential water over Mercury manometer
- 500mm scale differential water over Mercury manometer
- 500mm scale differential kerosene over water manometer
