

Product Name :
Solvent Recovery Unit

Product Code :
BTE-0018

Description :

Solvent Recovery Unit

Technical Specification :

Solvent Recovery Unit: Used to recover the solvent liquid after its use for the extraction tests. This unit has been designed to recover non-flammable solvents and consists of two stainless steel chambers, one for dirty solvent and the other for the cleaned solvent. An electric heater in the left-hand chamber distills the solvent, which then passes through a water cooling system and drops into
