

Product Name :
Wankel Engine Model

Product Code :
AEL-0025

Description :

Wankel Engine Model

Technical Specification :

DESCRIPTION:

The Educational model of a Wankel engine. This rotating engine model is true to the original and complete with cutaway carburetor. The rotor (triangular piston), operates by the driving shaft

and rotates inside the stator clearly showing the different phases. During the compression phase, a small bulb lights up to simulate the gas ignition.

This cut-away model is carefully sectioned for training purposes and is professionally painted with different colors to better differentiate the various parts, cross sections and fuel system. Many parts have been chromium plated and galvanized for a longer life.

FEATURES:

- Wankel engine model ideal for classroom demonstrations
- Cross-sectioned various parts to show internal operation
- Operated: Manually
- Equipment Layout: On Base with wheel
- Fine finish
- Simple operations
- Functional accuracy

SPECIFICATIONS:

- Light metal construction.
- Operated manually by a crank handle
- Mounted on a base
